

Vertechs Quick Connector – Packer Penetrator System

Vertechs Quick Connector (VQC) - Packer Penetrator System is a three-legged downhole ESP cable connector system. It is designed to provide the simplest and quickest cable connection without splicing, which significantly saves installation time and cost. A unique self-locking device ensures easy and successful electrical connections with high reliability. The VQC is also suitable for smaller annular clearance applications. An extremely simple design with a quick connection at a competitive price makes it an excellent solution for ESP packer penetration.

Features

- Simple design and easy connection, saving installation time and cost
- Eliminates cable splices downhole, lowering operation risk
- Slim design, suitable for smaller annular clearance applications
- Unique self-locking device, ensuring easy and successful connections
- Swagelok fittings seal off the penetrators with ESP packer
- Adaptable for different types of ESP packers
- Compatible with both round and flat cable with any size

Specifications

VQC-Packer Penetrator System Specifications		
Item	Unit	Value
Voltage rating	V	5,000
Current rating	A	125
Temperature rating	°F/°C	302 / 150
Pressure rating	psi	7,500
